

Helping your child to study at home

In the event of your child being absent from school due to self-isolation or local lockdown they will need to continue with their studies at home. All teachers will set home learning tasks for your child via Google Classroom. Your child should use their timetable to make sure that they have signed into all of their Google Classes so that they will be able to access all of their work.

Your child will need to know their school password to be able to sign in to Google Classroom. Please email support@stjosephs.uk.net if your child is unable to remember these.

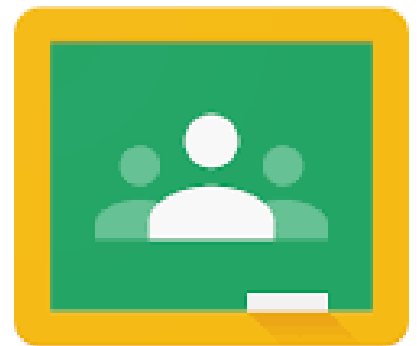

By completing the activities set on Google Classroom, you can be confident that your child will not fall behind with their learning.

Where to go for help with home learning:

Students can contact their subject teachers via Google Classroom – there is a message function which allows two-way communication between the student and the teacher. However, please remember that teachers are likely to be teaching all day!

DfE guidance for parents of school children. It can be found here: [DfE Guidance](#)

Tips for Creating a Learning Environment

Environment
Create a quiet, comfortable, distraction free area

Be prepared to learn
Equipment, resources and refreshments

Set targets
Give yourself goals to achieve so you know if you're on track

Take breaks
Set regular break times when you take time to refresh

Learning Timetable

Follow your school timetable to make sure that you are studying each subject.
